

Ecology, Evolution and Environmental Biology

Come Learn about the Living World!

Fall Undergraduate E3B Open House
Thursday November 14, 8:00-9:00pm
10th Floor Schermerhorn Extension

To learn more about majoring or concentrating in

Environmental Biology

the interactions of all kinds of life all around the world

&

Evolutionary Biology of the Human Species

how humans became human biologically and behaviorally

and the new

Minor in Ecology, Evolution, and Environmental Biology

There will also be nature-themed fun!

(Hint: Bring your natural history knowledge and coloring skills
and you may end up adopting some exotic wildlife*!)

* All wildlife adoptions are completely ethical, res life approved, and IACUC exempt
